

Tennis to Ultimate Volleyball Conversion System

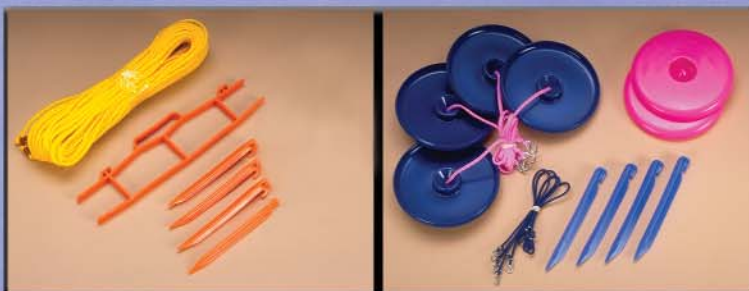

Outstanding features
make the
UltimateTM
Volleyball System
your ultimate choice.

*The name describes this portable volleyball net system!
Check out the features and you'll see why its The Ultimate
for outdoor play, whether "for real" or just for fun.*

- Side bracing and tensioners help non-stretch top and bottom cables keep the net taut for out-of-net play. The regulation size 3' x 32' net is strong, high-quality nylon mesh with vinyl-coated edging and 2-inch vinyl headband. Netting is treated for weather resistance.
- Unlike other systems, the upper pole sections move up and down with the net in place over smaller diameter lower pole sections. This allows infinite net height adjustments, set by large lock knobs, from the 4'5" to 8'4" without net assembly. Competition heights are marked on poles. Aluminum tensioners adjust guy lines when setting up or changing heights. No knot tying, untying or retying!
- Tight, Easy Set Up-aluminum guy line tensioners eliminate knot tying and ensure a good set up every time. Guy lines are non-stretch, moisture-proof composite cord with 350 lb. breaking strength.
- Long lasting rubber rings center the net and maintain proper tension.

- The ultimate is truly portable. It folds into a 12-lb bundle with net, lines and poles assembled, fitting into the nylon carrying bag included. The telescoping poles are light but strong tempered, seamless anodized aluminum-double-walled at stress points. All materials are weather-resistant. And it all sets up, ready for play, in 10 minutes!

- Durable, stakes for guy lines won't rust or rot.. (Optional Sand anchor kit available) Ground pins and poly-cord sections for boundary markers are included.

ULTIMATE
VOLLEYBALL SYSTEM

Easy Set-up
and break down.
Main parts stay
attached!
You can store this set
assembled.

Here's how it works:

1. Poles are telescoped together and secured.
2. Guy lines are wrapped around tang.
3. Net is then folded over on itself...
4. ...and rolled up on the poles.

Net size: 32' x 3'
Max. Net height: 8'4"
Min. Net height: 4'5"
Upper Pole tubing: 1 5/8" diameter
Lower pole tubing: 1 1/2" diameter
Guy lines length: 15'
Court Size: 29'6" x 59'
Breakdown dimensions: 6" dia. x 54"
Set-up time: 10 minutes
Weight: 12 lbs.

Protected under U.S. Patent No. 4,415,163
